¹North American Industry Classification System, 2012.

²GGS employment is the number of jobs related to the production of Green Goods and Services.

³GGS percent is the percentage of the GGS employment compared to the total employment. This value is derived by dividing the GGS employment by the total employment.

⁴Over-the-year change, 2010-11.

NOTE: GGS data for 2010 have been revised to incorporate methodological changes explained in the Technical Note. Please also note data may not add to total or subtotal due to rounding.

* Significant over-the-year changes are calculated at a 90 percent confidence level.
